Binh Thanh District, HCMC

Profile

Proactive Final-year IT Student at Open University Malaysia (OUM) – HUTECH Campus, prepared for full-time career opportunities. With 16 weeks of hands-on internship experience at C&T Electrical Electronics Co., Ltd, I possess a robust foundation in Full-Stack Web Development (Next.js, Express, MongoDB), IoT protocols (MQTT, ESP32), and system deployment. Proven track record in building production-grade web solutions and hardware-software integration. Aiming to leverage my technical expertise to build scalable applications as a versatile Software Developer.

Technical Skills

Programming Languages	JavaScript/TypeScript, Java, C/C++ (Arduino), Python, SQL
Frontend & Mobile	Next.js 14/15, React 19, Tailwind CSS, Android SDK (Basics) , XML
Backend & APIs	Node.js, Express, NestJS 10 , RESTful APIs, 3rd-party API Integration
Cloud & Databases	MongoDB, PostgreSQL, Redis, MySQL, Firebase
Server & DevOps	Web/App Deployment, Docker, PM2, Windows Server, IIS, Reverse Proxy
IoT & Hardware	ESP32 WROOM-32, MQTT (EMQX Broker), RFID-RC522, Socket.io
Tools & Design	Git/GitHub, Postman, Figma (UI/UX Basics) , AI Tools (Prompting)

Work Experience

C&T Electrical Electronics Co., Ltd.

IT Intern (Software Development & IoT R&D)

Sep 2025 – Dec 2025

HCMC, Vietnam

- Branch Web Platform:** Developed and deployed a high-performance branch website using MERN Stack (Next.js, Express, MongoDB) with SSR for SEO optimization, configuring IIS server and PM2 process manager.
- Smart Factory 2025 IoT R&D:** Researched hardware-software integration using ESP32 microcontrollers and industrial sensors; implemented MQTT protocols for real-time sensor data transmission to central management servers.
- Kiosk & Citizen ID Project:** Researched Native/React Native SDKs, .NET APIs, and JWT authentication flows to integrate chip-based Citizen ID scanning modules for automated payment Kiosks.

Highlighted Projects

SAMS - Smart Access Management System

Enterprise IoT Access Control System (NestJS, Next.js, Docker)

Jan 2026 – Mar 2026

[GitHub Link](#)

- IoT Infrastructure:** Programmed **ESP32** microcontrollers in C++ to interface with **RFID-RC522** readers, utilizing **EMQX** broker for secure MQTT communication.
- Backend & Security:** Built a **NestJS 10** backend with real-time **Socket.io** events and multi-level RBAC, managing data across **PostgreSQL** and **MongoDB**.
- DevOps:** Deployed the ecosystem using **Docker** with automated backup and recovery scripts.

THỦY TÙNG - Education Promotion Website

Overseas Education Platform (Next.js, Express, TypeScript)

2025 – 2026

- Architecture & Caching:** Developed the **ThuyTung** platform using **Next.js 15** and **Express**, integrating **Redis** for session management and optimized data caching.
- System Operations:** Deployed on **Windows Server** using **IIS** and **PM2**, configuring Reverse Proxies and domain SSL for high availability.

Education

Open University Malaysia (OUM) – HUTECH Campus

Bachelor of Information Technology (International Joint Program)

2022 – 2026 (Expected)

GPA: 3.2/4.0

Soft Skills & Languages

Languages: English (Fluent), Vietnamese (Native).

Soft Skills: Teamwork, Time Management, Leadership, Effective Communication, Critical Thinking.
